

## English Team Selection Procedure 2026

### General

For a lifter to be eligible for consideration for international selection for Team England they must fulfil all the criteria below:

- Hold a current valid membership of British Powerlifting whose registered division forms part of the Home Nation of England.
- Be in good standing with EPA, BP, and the IPF and not be subject to any sanctions.
- Conduct themselves in a professional manner.
- Comply with Article 14 of the Constitution of the IPF. Accordingly, lifters who have competed in a non-WADA compliant powerlifting event will be ineligible for a period of 12 months thereafter for international selection/championships.
- Comply with WADA, IPF, and BP anti-doping procedures and be available for testing should it be required of them.

It should be noted that completion of all requirements will only make an athlete eligible for selection and does not guarantee selection for Team England.
